

Material Safety Data Sheet

Page 1 of 8

Evenrange Material Safety Data Sheet
Date Revised: 06.10.2016
Product: **STRIPCURE 12P**

1. Substance/preparation and company identification

STRIPCURE 12P

Use: Surfactant

Company

Evenrange Pty. Ltd (ABN 92 062 754 545)
12 Frankston Gardens Drive, Carrum Downs
Victoria, 3201 AUSTRALIA
Telephone: 03 9782 3233
Fax number: 03 9782 3244

Emergency Information

Business Hours: 03 97823233
After Hours: 0417 346 280
Outside Australia: + 61 417 316 280

2. Hazard Identification

This product is not expected to pose a health risk if handled in accordance with the health and safety advice provided in this Material Safety Data Sheet.

NON HAZARDOUS SUBSTANCE, NON-DANGEROUS GOOD

Evenrange Material Safety Data Sheet

Date Revised: 06.10.2016

Product: **STRIPCURE 12P**

3. Composition/information on ingredients

Chemical entity

Blend based on: natural product containing potassium

Ethoxylated with
6 moles of ethylene
oxide

Content (W/W): \geq .70%
CAS Number: 9004-96-0
Hazard symbol(s): Not applicable
R phrase(s): Not applicable

Poison Schedule (SUSMP): None allocated

4. First-Aid Measures

General advice:

First aid personnel should pay attention to their own safety. Remove contaminated clothing.

If inhaled:

If difficulties occur after vapour/aerosol has been inhaled, remove to fresh air and seek medical attention.

On skin contact:

After contact with skin, wash immediately with plenty of water and soap. Under no circumstances should organic soap be used. If irritation develops, seek medical attention.

On contact with eyes:

Wash affected eyes for at least 15 minutes under running water with eyelids held open, consult an eye specialist.

On ingestion:

Rinse mouth immediately and then drink plenty of water, seek medical attention. Do not induce vomiting unless told to by a poison control centre or doctor.

Note to physician:

Symptoms: No significant symptoms are expected due to the non-classification of the product.

Treatment: Treat according to symptoms (decontamination, vital functions), no known specific antidote.

Evenrange Material Safety Data Sheet

Date Revised: 06.10.2016

Product: **STRIPCURE 12P**

5. Fire-Fighting Measures

Suitable extinguishing media:

Foam, water spray, dry powder, carbon dioxide.

Unsuitable extinguishing media for safety reasons:

Water jet

Specific hazards:

Combustible liquid

Special protective equipment:

Wear a self-contained breathing apparatus.

6. Accidental Release Measures

Personal precautions:

Use personal protective clothing. Do not breathe vapour/aerosol/spray mists. Handle in accordance with good building materials hygiene and safety practice.

Environmental precautions:

Contain contaminated water/fire fighting water. Do not discharge into drains/surface waters/groundwater.

Methods for cleaning up or taking up:

For small amounts: Pick up with inert absorbent material (e.g. sand, earth etc.). Dispose of contaminated material as prescribed.

For large amounts: Pump off product.

7. Handling and Storage

Classified as a C2 (COMBUSTIBLE LIQUID) for the purpose of storage and handling, in accordance with the requirements of AS 1940. Refer to State Regulations for storage and transport requirements.

Precautions for safe handling

Avoid skin and eye contact.

Conditions for safe storage, including any incompatibilities:

Suitable materials for containers. High density polyethylene (HDPE)

Further information on storage conditions: Keep only in original container in a cool, dry, well-ventilated place away from ignition sources, heat or flame. Protect from direct sunlight.

Evenrange Material Safety Data Sheet

Date Revised: 06.10.2016

Product: **STRIPCURE 12P**

8. Exposure Controls and Personal Protection

Components with workplace control parameters

The substances without values are not listed in the occupational exposure regulations for the validity area of this Material Safety Data Sheet. No exposure standard allocated.

Personal protective equipment

Respiratory protection:

Natural ventilation should be adequate under normal conditions. Keep containers closed when not in use.

Hand protection:

Impermeable rubber gloves.

Manufacturer's directions for use should be observed because of great diversity of types.

Eye protection:

Safety glasses with side-shields (frame goggles) (e.g. EN 166)

Body protection:

Light protective clothing

General safety and hygiene measures:

In order to prevent contamination while handling, closed working clothes and working gloves should be used. Handle in accordance with good building materials hygiene and safety practice. When using, do not eat, drink or smoke. Hands and/or face should be washed before breaks and at the end of the shift. At the end of the shift skin should be cleaned and skin-care agents applied. Gloves must be inspected regularly and prior to each use. Replace if necessary (e.g. pinhole leaks)

9. Physical and Chemical Properties

Form:	Clear liquid
Colour:	Yellow
Odour:	Product Specific
pH value:	8-11 (1% aqueous solution)
Specific gravity:	0.922@20°C
Boiling point:	Not available
Flash point:	>160°C
Lower explosion limit:	Not applicable
Upper explosion limit:	Not applicable
Explosion hazard:	Not explosive
Fire promoting properties:	Not fire-propagating
Vapour pressure:	Not applicable
Density:	Not available
Bulk density:	Not applicable

Other information:

If necessary, information on other physical and chemical parameters is indicated in this section.

10. Stability and Reactivity

Conditions to avoid:

Stable under normal conditions of use

See MSDS Section 7 - Handling and Storage

Thermal decomposition:

No decomposition if stored and handled as prescribed/indicated.

Substances to avoid:

Incompatible with strong oxidising agents.

Hazardous reactions:

Oxides of carbon

11. Toxicological Information

Acute Toxicity

Assessment of acute toxicity:

Virtually nontoxic after a single ingestion. The product has not been tested. The statement has been derived from the properties of the individual components.

Irritation

Assessment of irritating effects:

Not irritating to eyes and skin. No irritation is expected under intended use and appropriate handling.

Sensitization

Assessment of sensitization:

The product has not been tested. The statement has been derived from the properties of the individual components.

Repeated dose toxicity

Assessment of repeated dose toxicity:

No reliable data was available concerning repeated dose toxicity.

Genetic toxicity

Assessment of mutagenicity:

The chemical structure does not suggest a specific alert for such an effect. The product has not been tested. The statement has been derived from the properties of the individual components.

Assessment of carcinogenicity:

The chemical structure does not suggest a specific alert for such an effect.

Reproductive toxicity

Assessment of reproduction toxicity:

The chemical structure does not suggest such an effect. The product has not been tested. The statement has been derived from the properties of the individual components.

Development toxicity

Assessment of teratogenicity:

The chemical structure does not suggest such an effect. The product has not been tested. The statement has been derived from the properties of the individual components.

Other relevant toxicity information

Based on our experience and the information available, no adverse health effect are expected if handled as recommended with suitable precautions for designated uses. The product has not been tested. The statement has been derived from the properties of the individual components.

12. Ecological Information

Ecotoxicity

Assessment of aquatic toxicity:

At the present state of knowledge, no negative ecological effects are expected. There is a high probability that the product is not acutely harmful to aquatic organisms. The product has not been tested. The statement has been derived from the properties of the individual components.

Mobility

Assessment transport between environmental compartments:

No data available.

Persistence and Degradability

Assessment biodegradation and elimination (H₂O):

Inherently biodegradable. The insoluble fraction can be removed by mechanical means in suitable waste water treatment plants.

Bioaccumulation Potential

Assessment bioaccumulation potential:

No data available concerning bioaccumulation.

Discharge into the environment must be avoided.

Additional Information

Other ecotoxicological advice:

There is a high probability that the product is not acutely harmful to aquatic organisms. Do not discharge product into the environment without control. The product has not been tested. The statement has been derived from the properties of the individual components.

13. Disposal Considerations

Observe national and local legal regulations

Residues should be disposed of in the same manner as the substance/product.

Contaminated packaging:

Contaminated packaging should be emptied as far as possible; then it can be passed on for recycling after thoroughly cleaned.

14. Transport Information

Domestic transport: Not classified as a dangerous good under transport regulations

Sea transport: Not classified as a dangerous good under transport regulations
IMDG

Air transport: Not classified as a dangerous good under transport regulations
IATA/ICAO

15. Regulatory Information

Poisons Schedule: Not scheduled

Regulations of the European Union (Labelling)

Directive 199/45/EC-20 ('Preparation Directive'):

This product does not require a hazard warning label in accordance with EC-20 Directives. Labelling on the basis of data obtained from the manufacturer/supplier.

Other regulations

If other regulations information applied that is not already provided elsewhere in the Material Safety Data Sheet then it is described in this subsection.

Registration status:

AICS, AU released/relisted

16. Other information

The data contained in this Material Safety Data Sheet are based on our current knowledge and experience and describe the product only with regard to safety requirements. The data do not describe the product's properties (product specification). Neither should any agreed property nor the suitability of the product for any specific purpose be deduced from the data contained in the Material Safety Data Sheet. It is the responsibility of the recipient of the product to ensure any proprietary rights and existing laws and legislation are observed.
